BIIS Webinar

SITARE BIIS: Opportunity for technology students to work on grassroots innovations

SRISTI (Society for Research and Initiatives for Sustainable Technologies and Institutions) in collaboration with BIRAC (Biotechnology Industry Research Assistance Council, Department of Biotechnology, Govt. of India) is organising a three-week SITARE BIIS (Students Innovations for Translation & Advancement of Research Explorations-Biotech Innovation Ignition School) for validating, value-adding and product development around grassroots innovations. The BIIS tries to develop solutions for grassroots applications for humans, animals, and agricultural including herbal technologies, medical devices, and microbial applications.

This time due to COVID-19 pandemic we have conducted BIIS-6 course as a webinar started from 22nd September-12th October, 2020, where the prime focus was to build the capacity of primarily undergraduate students to develop skills in the field of phytochemistry, pharmacognosy, extraction, separation of compounds, microbial diversity screening, pest control, development of extremely affordable solutions for farmers, livestock keepers, pastoralists, human applications, besides patent, biostatistics and ethical guidelines for work on grassroots knowledge and innovations.

There were total 52 students selected for BIIS-6 out of which (30 applicants from life sciences and 27 from bioengineering; 16 from aspirational districts and from Tier-II and Tier-III cities).

The topics for the online course BIIS-6 were designed based on following fields. As a part of webinar we had assigned some projects to the students primarily in five action-research areas drawing upon the Honey Bee Network Database:

1. Pharmacognosy/Phytochemistry
2. Soil Microbiology
3. Veterinary Medicine
4. Agriculture
5. Medical devices.

The reading material for each subject was shared with the selected students in advance. There were experts lectures arranged in various techniques of microbiology, phytochemical extraction procedures, live experiments and demonstration of lab equipment during the webinar. The topics covered and the expert details are shown in table below. Total 5 exams (2 descriptive types and 3 MCQ based) were conducted based on the expert lectures. Moreover there were 3 assignments given to the students, for assignment 1 they had to document the grassroots innovations, their problems and traditional knowledge from their grandparents, assignment 2 was aimed to write a review article and prior art search of the 3 problems/disease related to human, agriculture and veterinary; assignment 3 was given to design scientific protocol and detail proposal grassroots practices.

These students would receive an expert feedback on their proposals from the reviewers. The assignment, quiz and work done by students during BIIS webinar are under assessment. The outstanding studies (up to 10 per BIIS) may be identified for further support of INR 1 lakh each as SITARE-Appreciation Award Grant. The grantees are
expected to conduct further research on the topic given either at home institution or at SRISTI’s lab. All the output will be credited to the grassroots knowledge providers and can be published thereafter with prior written concurrence of the BIIS team and knowledge providers.

The valedictory session of BIIS-6 (Biotech Innovation Ignition School) webinar on 12th October, 2020 was chaired by Prof. Gagandeep Kang, The Wellcome Trust Research Laboratory, Division of Gastrointestinal Sciences, Christian Medical College, Vellore, Tamil Nadu. During the last session, students had shared their experience and feedback of BIIS webinar.

Schedule of BIIS-6

<table>
<thead>
<tr>
<th>Date</th>
<th>Time</th>
<th>1st Week- Grassroots innovations, life sciences innovations and entrepreneurship</th>
<th>Lecturer/Institute</th>
</tr>
</thead>
<tbody>
<tr>
<td>9/22/2020</td>
<td>9:30-10:30 AM</td>
<td>Welcome and introductory remarks on grassroots innovations</td>
<td>Prof. Anil K Gupta, Founder-Honey Bee Network, Coordinator-SRISTI, GIAN, Visiting faculty-IIM-A &amp; IIT-B</td>
</tr>
<tr>
<td></td>
<td>10:40-11:15 AM</td>
<td>Inaugural address</td>
<td>Dr. Shekhar C. Mande, Director General, Council of Scientific &amp; Industrial Research, New Delhi</td>
</tr>
<tr>
<td></td>
<td>11:30 AM-12:40 PM</td>
<td>Role of BIRAC in nurturing biotech entrepreneurship</td>
<td>Dr. Shilpy Kochhar, Entrepreneur Development Manager, DBT-BIRAC</td>
</tr>
<tr>
<td></td>
<td>2:00-3:10 PM</td>
<td>Role of state government in promoting entrepreneurship and innovations</td>
<td>Dr. Anasuya Bhadalkar (Joint Director, GSBTM)</td>
</tr>
<tr>
<td>9/23/2020</td>
<td>11 AM-12:10 PM</td>
<td>Paths to entrepreneurship in the life sciences</td>
<td>Dr. Madhusudan Rao /Dr. Ramjee Palela, Atal Incubation Centre-CCMB</td>
</tr>
<tr>
<td></td>
<td>12:20-1:30 PM</td>
<td>IPR, Patent and Ethical framework for accessing and exploring people’s knowledge and grassroots innovations</td>
<td>Dr. Viswajanani Sattigeri, Head, CSIR-Traditional Knowledge Digital Library Unit, New Delhi</td>
</tr>
<tr>
<td></td>
<td>2:30-3:40 PM</td>
<td>Clinical management of Covid-19 through traditional medicines</td>
<td>Prof. Tanuja Manoj Nesari, MD, PhD, All India Institute of Ayurveda, New Delhi</td>
</tr>
<tr>
<td>9/24/2020</td>
<td>11:00 AM-12:00 PM</td>
<td>Assignment ( Documentation of grassroots innovations, their problems and traditional knowledge)</td>
<td>Prof. Anil Gupta and Lab Team</td>
</tr>
<tr>
<td>9/25/2020</td>
<td>11 AM-12:10 PM</td>
<td>Adapting Research Methodologies During Pandemic situation</td>
<td>Dr. Debprasad Chattopadhya, Scientist G &amp; Director ICMR-NITM</td>
</tr>
<tr>
